

K-Love is essential to myself as well as many others in my community. This station offers counseling and encouragement through the music and messages. Without K-Love I feel that our community would suffer a great loss because of how much of a positive effect it has on listeners and how it really serves many people. It is in the public interest to ensure that K-Love continues to broadcast because it gives people hope when they feel there is none and it is priceless to feel confident that this station will never air anything that we would not want our children to listen to. There is no other station that I feel is 100% safe for all family members.
